

**Undapalli manasa lakshmi Sri,  
23B05A4512,  
Department of Artificial Intelligence,  
Shri Vishnu Engineering College for Women.**

**I did a presentation using canva and exported it into microsoft powerpoint as canva uses pricing so far. Then I did some Animations to those slides and added voice to it .  
Then I uploaded it to my youtube channel.**

**Here is the video link:  Semantic Tableau System in propotional logic**

**After that I used “lumi” software to add interactions between the video. The time for the video that I created is around 6 minutes, So I just added around 8 interactions in between the video. The interactions include fill in the blanks, single choice questions, multiple choice questions and true or false.**
